To Whom It May Concern:

The horses, DOWN SWINGING which is consigned to the 88 Ranch Online Remuda Sale, was seen by Dr. Carden in December of 2022. A Coggins was drawn, their teeth were floated, and wolf teeth/caps were extracted if present. Baseline radiographs of front feet, hocks, and stifles were also obtained.

A physical exam was performed as well. This horse had a normal temperature, no ocular abnormalities noted, and heart auscultation within normal limits. No lameness was evident at a walk on the day of exam.

Please feel free to contact us if need any other information!

Sincerely,

Powder River Vet Hospital
